Commercial Wizard Cross-Section

What do they look like?

Area required = 3 – 5pe/m²

Benefits of the Commercial Wizard

LOWER CAPEX	LOWER OPEX
Small Footprint Efficient & Flexible Design Minimal M&E Reduced Build Time	Minimal Maintenance No Sludge Low Energy System Minimal Upskilling of Workforce

Current Developments

Sludge Wizard

Retrofit to existing sites

Reduce sludge expenditure

Growth potential

Mobile Wizard

Temporary treatment solutions

Emergency treatment

Allow for invasive maintenance

What Our Growth Looks Like

How do we reach potential clients?

Commercial Wizard
Launch

Future Clients

With a Little Help

Summary

The Wizard technology is a disruptive technology using worms to treat wastewater (inc. sludge)

Advantages -

- Reduced Footprint
- Lower Capital Spend
- Minimal Energy
- Lower Operational Input
- No Sludge

Growth through collaboration
